OBJECTIVE

Motivated Data Science student with hands-on internship experience in data analysis, geospatial mapping, and visualization. Skilled in Python, SQL, Power BI, and Excel, with a proven ability to clean datasets, build dashboards, and communicate insights to stakeholders. Seeking a Data Analyst role to apply and grow my technical skills.

EXPERIENCE

Data Science Intern Jeddah Municipality – Data Office

Sep 2025 – Dec 2025

- Cleaned and transformed raw data for Rabigh city using Excel and Power Query, improving dataset accuracy and reducing preparation time.
- Developed 25+ interactive Power BI dashboards delivering actionable insights to stakeholders across multiple departments.
- Designed an optimized bus route map for Jeddah in preparation for FIFA World Cup 2030, mapping mobility corridors and transit coverage.
- Built geospatial maps identifying World Cup venues; work was presented to senior officials and received positive recognition.

EDUCATION

Diploma in Data Science

University of Jeddah – Saudi Arabia | 2023 – 2026

CERTIFICATIONS

- Data Science Orientation – IBM
- Excel Basics for Data Analysis – IBM
- Introduction to Data & Descriptive Analytics – Hadaf
- Data Analysis – Hadaf
- Power BI – SATR
- Python for Data Analysis – SATR
- SQL – SATR
- Data Analysis Bootcamp (30 hrs) – Hash Plus

PROJECTS

Heart Disease Analysis – Python / scikit-learn

- Built a classification model on 920 patient records achieving 98% accuracy; covered full pipeline from data cleaning to visualization and prediction.

Store Sales Analysis – Power BI / Excel

- End-to-end data cleaning and visualization project analyzing store sales performance — uncovering revenue patterns, product trends, and actionable business insights.

Pizza Store Analysis – Power BI / Python

- Delivered interactive dashboard analyzing pizza store sales performance, customer trends, and product insights using Power BI.

SKILLS

- Python (pandas, matplotlib, scikit-learn)
- SQL – Querying & Filtering
- Data Cleaning & Preparation
- Descriptive & Exploratory Analytics
- Power BI & DAX
- Excel & Power Query
- Data Storytelling & Reporting
