# TURKI AL TAYEB

Junior Data Analyst | Data Science Graduate

+966 566 625 257 turki.aaltayeb@gmail.com Saudi Arabia linkedin

## OBJECTIVE

Motivated and detail-oriented Data Science student with hands-on experience in customer service and business operations. Eager to leverage analytical skills, programming knowledge, and data-driven problem-solving capabilities in a dynamic and challenging Data Scientist role. Possesses practical knowledge of Python, SQL, and data visualization, supported by academic and personal projects, with a proven ability to communicate insights effectively and collaborate in fast-paced environments.

## EXPERIENCE

**store Manager Self-Managed Cafe – Saudi Arabia | Jun 2023 – Jun 2026**

- Managed daily operations of a busy coffee shop while maintaining high service and quality standards.
- Improved workflows and streamlined ordering processes, reducing wait times and increasing operational efficiency.
- Handled high customer volumes through effective team coordination, enhancing overall customer satisfaction.

**Data Science Intern Jeddah Municipality – Data Office | Sep 2025 – Dec 2025**

- Cleaned and transformed raw data for Rabigh city, preparing datasets for analysis using Excel and Power Query.
- Developed 25+ interactive Power BI dashboards, providing actionable insights for stakeholders.
- Collaborated with data engineers and analysts to improve data workflows and ensure accurate reporting.

## EDUCATION

**Diploma in Data Science**

University of Jeddah – Saudi Arabia | 2023 – 2026

## CERTIFICATIONS

- Data Science Orientation – IBM
- Excel Basics for Data Analysis – IBM
- Data Analysis – STC
- Python – SATR
- SQL – SATR

## PROJECTS

**Heart disease data analysis**

- This project provides a comprehensive analysis of heart disease data using data analysis and machine learning techniques.

**2020 Air Quality Analysis**

- The analysis aims to understand the distribution of air quality during the year, the extent of monthly change, and the number of days classified within each category.

## SKILLS

- Python Programming
- SQL (Basic)
- Data Cleaning & Preparation
- Data Visualization (Excel, Power Bi)
- Quality Assurance & Monitoring
- Automated Order Processing
